Summary

I own products end to end, from customer conversation to production code. At FlowSpace I took over a live marketplace on a legacy stack and drove the migration to Next.js and Laravel, mapping the data model, building the API layer, and shipping the cutover that scaled the platform from 2,000 to 4,500+ users. I then built the AI layer on top: a document processing pipeline, support agents against live data, and CRM automations connecting Attio, OfficeRnD and other third-party platforms. I write TypeScript, Node.js, React, Python and PostgreSQL, and I work autonomously from design through deployment.

Skills

- **Full-stack product engineering:** end-to-end ownership from customer problem to production code, data modelling, API design, async processing, failure handling, CI/CD, autonomous shipping
- **Languages & frameworks:** TypeScript, Node.js, Express, React, Next.js, Python, PostgreSQL, Redis, Supabase, Laravel (PHP)
- **AI & LLMs in production:** Claude Code as primary dev environment (daily for 1+ year), LLM APIs (OpenAI, Claude), structured outputs, retrieval-augmented generation, document processing pipelines
- **Integrations & automation:** REST APIs, webhooks, third-party platform integrations (Attio, OfficeRnD, Nexudus, Amplemarket), n8n workflow orchestration

Experience

FlowSpace.co **Mar 2024 – Aug 2026**
Full-Stack & AI Engineer (Full-time, Freelance) *London, UK (remote)*

- Took over a live marketplace on a legacy stack and worked with the team to migrate it to a coded Next.js and Laravel product, mapping the data model and driving the cutover. Scaled it from 2,000 to 4,500+ users.
- Built an AI listing bot with a human in the loop: it takes a brochure in any format (PDF, web page, photo or spreadsheet), drafts the full listing with an LLM, and pushes it to the backend after review.
- Built support AI agents that answer customer queries against live platform data and escalate to a person on low confidence.
- Built CRM and GTM automations with n8n, including a pipeline connecting Attio, Amplemarket and Swan, plus OfficeRnD and Nexudus booking integrations.
- Worked directly with the internal team, an external agency and customers, and resolved issues end to end.
