Prabhavit Gupta

AI Software Engineer: Multi-Step LLM Agents, Tool Use & Production Ingestion

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy

Summary

AI solutions and software engineer with about three years of experience building and shipping LLM agent systems, multi-step orchestration workflows, and data ingestion pipelines in production. At FlowSpace I built customer support AI agents with tool use and function calling against live platform APIs (with confidence evaluation and human escalation), an automated LLM document ingestion bot with human review (900+ listings drafted and committed), and robust REST API integrations across third-party platforms. Experienced directing agentic architectures, Claude Code, Cursor, and configuring data pipelines with TypeScript, SQL, and working-level Python. Based in Venice, Italy with an Italian EU long-term residence permit (permanent unrestricted right to work across the EU without sponsorship). Available immediately.

Experience

FlowSpace.co **Mar 2024 - Aug 2026**
Lead Developer (Full-time, Freelance) *London, UK (remote)*

- Engineered multi-step autonomous customer support agents utilizing LLM tool use and function calling: queries live platform endpoints for availability and bookings, evaluates confidence scores, and escalates edge cases to humans.
- Built an automated AI listing bot with human-in-the-loop review: extracts structured properties from heterogeneous sources (PDFs, spreadsheets, web pages), audits outputs against authoritative data, and pushes approved records via REST APIs. 900+ listings drafted.
- Integrated external REST APIs including OfficeRnD and Nexudus for automated workspace bookings, and built CRM lead-capture and sales funnels using n8n and webhooks.
- Led full platform migration to a modern Next.js and Laravel stack: structured relational data models, mapped migration logic across entities, and scaled the platform from 2,000 to 4,500+ active users.
- Implemented verification safeguards across document pipelines: audited generated fields against authoritative source data, enforced structured JSON output schemas, and verified final platform state via API readback.
- *Tools: Claude Code, n8n, Playwright, Postman, Laravel, TypeScript, Supabase, SQL, GitHub, Jira, Miro*

UltraStrategy.com **Dec 2024 - May 2025**
Automation Developer (Collaborator) *France*

- Developed automated document extraction and parsing workflows using n8n and Eden AI (LLM extraction) to parse candidate profiles into structured database records.
- *Tools: n8n, Eden AI, REST APIs*

Urlink **Apr 2025 - Jul 2025**
Project Manager and AI-Assisted Developer (Freelance) *Barcelona, Spain*

- Built application business logic, AI-assisted user interfaces, and automated workflows according to client specifications.
- *Tools: GitHub, Netlify, Supabase, TypeScript*

Qomodo **2024 - Jan 2025**
AI and Low-Code Developer (Collaborator) *Milan, Italy*

- Developed company management dashboards for branch operations and implemented Figma component designs.

Get2Germany.com **Jan 2024 - May 2024**
Lead Developer and Automation Specialist (Part-time) *Berlin, Germany*

- Integrated Google APIs for platform tracking, built database models, and created AI-based automation tools for educational course discovery.
- *Tools: n8n, Figma, Google APIs, relational databases*

Clubee.com **Sep 2023 - Aug 2024**
Low-Code Developer and Quality Assurance (Full-time, Freelance) *Foetz, Luxembourg*

- Integrated Clubee REST APIs across web applications, conducted automated and manual QA testing on new features, and developed federation administration tools.
- *Tools: Figma, GitHub, Postman, REST APIs*

Tractionboard.co **Aug 2023 - Oct 2023**
Low-Code Developer (Internship) *Utrecht, Netherlands*

- Integrated OpenAI API and SendGrid communication pipelines, developed responsive web interfaces, and configured analytics tracking.
- *Tools: OpenAI API, Sendgrid, Figma*

Education

Ca' Foscari University of Venice **Oct 2020 - Jun 2024**
Bachelor's in Philosophy, International Studies & Economics, Minor in Entrepreneurship *Venice, Italy*

Certifications

Microsoft Copilot Studio Agent Academy • Microsoft: Introduction to building AI agents • Microsoft Power Automate • Tray.AI Build Practitioner (Sep 2024) • Tray.AI Build Foundations

Additional Information

- **Work authorization:** European Long Term Residence Permit (Italy), permanent unrestricted right to work across the EU without sponsorship. Available immediately.
- **Languages:** Hindi (native), English (professional), Italian (beginner / developing).

Core Skills

- **AI & Agentic Systems:** Multi-step LLM agents, tool use and function calling, prompt engineering, structured JSON outputs, RAG architectures, knowledge base ingestion, confidence evaluation, Claude Code, Cursor
- **Data Pipelines & Integration:** REST APIs, webhooks, OAuth, data modeling, SQL, PostgreSQL, Supabase, n8n, Postman, Google APIs
- **Engineering & Stack:** TypeScript, JavaScript, Node.js, Python (working level), Laravel, Playwright, Git, CI/CD basics, Jira
- **Solution Ownership:** Technical discovery, business process analysis, end-to-end implementation, human-in-the-loop validation
