Prabhavit Gupta

QA Automation Engineer: Python, API Test Frameworks & AI-Assisted QA

+39 351 610 7807 | prabhavitg@gmail.com | linkedin.com/in/prabhavit | github.com/prab-gupta | Venice, Italy

Summary

QA Automation Engineer and developer based in Venice, Italy with European Long-Term Residence (unrestricted EU work authorization) and immediate availability for remote roles. 3+ years of experience designing and scaling automated test frameworks for backend services, REST APIs, and event-driven architectures using Python, Playwright, PyTest, and Postman. Strong hands-on background in Linux system administration, Docker containerization, and continuous integration (GitHub Actions). Actively pioneers AI-augmented engineering workflows, leveraging Claude Code and LLM agents to accelerate test case authoring, synthetic test data generation, edge-case discovery, and rapid incident root-cause analysis.

Experience

FlowSpace.co • *Lead Developer (Full-time, Freelance)*
Mar 2024 - Aug 2026 • London, UK (remote)

- Designed and implemented end-to-end automated test suites with Playwright, Postman, and Python, validating multi-step booking workflows, auth flows, and third-party integrations across 4,500+ active users.
- Built automated validation pipelines for unstructured multi-format data ingestion (PDFs, images, spreadsheets), enforcing strict schema conformance and error boundaries before persistence.
- Implemented automated health monitoring and regression testing integrated into CI/CD workflows, reducing release failure rates and catching API contract drifts early.
- Leveraged Claude Code and LLMs to automate regression test authoring, generate synthetic API payloads for edge cases, and analyze error logs during root-cause triage.
- Coordinated testing and quality gates between internal developers and external agency partners during major infrastructure cutovers.
- *Tools: Python, Playwright, Postman, Claude Code, GitHub Actions, Docker, TypeScript, Supabase, Linux*

Urlink • *Project Manager & AI-Assisted Developer (Freelance)*
Apr 2025 - Jul 2025 • Barcelona, Spain

- Built automated validation workflows and structured customer-facing demos with AI agents for client onboarding and document ingestion.
- Managed project delivery end to end: mapped stakeholder requirements, built proof-of-concept prototypes, coordinated testing, and handed over documentation to client teams.
- *Tools: Claude Code, Python, APIs, Postman, Supabase*

Freelance • *Full-Stack AI & Automation Developer*
Sep 2023 - Mar 2024 • Venice, Italy

- Built web scrapers, data enrichment pipelines, and custom API integrations for clients across Europe.
- Developed internal tools with modern frontend frameworks and backend scripts, automating repetitive manual data entry.
- *Tools: TypeScript, Python, n8n, Supabase, REST APIs*

Tractionboard.co • *Low-Code Developer (Internship)*
Aug 2023 - Oct 2023 • Utrecht, Netherlands

- Integrated ChatGPT/OpenAI and Sendgrid, built responsive designs, debugged features and implemented Google Ads 4.
- *Tools: Figma, Sendgrid, ChatGPT*

Education

Ca' Foscari University of Venice • *Bachelor's in Philosophy, International Studies & Economics, Minor in Entrepreneurship*
Oct 2020 - Jun 2024 • Venice, Italy

Certifications

Microsoft Copilot Studio Agent Academy • Microsoft: Introduction to building AI agents • Microsoft Power Automate • Tray.AI Build Practitioner (Sep 2024) • Tray.AI Build Foundations

Additional Information

- **Work authorization:** European Long Term Residence Permit (Italy), no sponsorship needed in the EU. Available immediately.
- **Languages:** Hindi (native), English (professional), Italian (beginner).

Core Skills

- **Test Automation & Frameworks:** Python test automation, PyTest, Playwright (API & UI), Postman / Newman, REST API testing, regression & sanity suites, mock servers
- **Infrastructure & DevOps:** Linux system administration, Docker containerization, GitHub Actions, GitLab CI, bash scripting, log analysis, Git version control
- **Protocols & Architecture:** HTTP/HTTPS, RESTful design, TCP/IP fundamentals, DNS, TLS certificates, client-server architectures, webhook validation
- **AI-Assisted QA Workflows:** Claude Code, LLM-driven test case generation, synthetic dataset construction, automated failure triaging and root-cause analysis
